Tanya Young promoted to Principal

We are proud to announce the promotion of Tanya Young to Principal in our Auckland office.

Tanya is a construction law specialist who joined Greenwood Roche as a junior lawyer in 2017. Tanya has been an integral part of our construction practice, seeing it through 7 years of intensive growth and diversification to become one of New Zealand's largest integrated construction & projects teams.

Since joining Greenwood Roche, Tanya has worked on an integrated basis alongside teams delivering some of NZ's largest infrastructure projects, gaining extensive practical and commercial experience and forging many friendships along the way.

Tanya partners with clients both in a project-counsel capacity and as an external advisor throughout the project life-cycle, from risk assessment, procurement strategy, and contract preparation through to project delivery, managing project interfaces, claims, disputes, completion and handover. Recent examples of Tanya's work include the City Rail Link, Puhoi to Warkworth Expressway PPP and Auckland International Airport's Taxiway Mike and Remote Stands project.

Given her experience and deep practical knowledge of the construction industry, it is little surprise that Tanya is well known for her ability to combine commercial pragmatism with strong technical expertise to consistently deliver great outcomes for her clients.

As well as her unique skill set, Tanya's promotion recognises her enduring work ethic and her high esteem among clients and colleagues.

Congratulations Tanya!
