
Canterbury earthquake recovery

The government has, as one of its key priorities, the recovery and rebuild of Canterbury following the devastating earthquakes in 2010 and 2011.

Greenwood Roche advised the Canterbury Earthquake Recovery Authority on anchor projects to assist with the recovery, including the health precinct, the south frame and the east frame.

Otakaro was established in April 2016 to take over some of the functions of the Canterbury Earthquake Recovery Authority, and Greenwood Roche continues to advise on various rebuild projects. We have assisted Otakaro with the development and associated property matters relating to the north, south and east frames, Margaret Mahy playground, the CTV memorial site, Te Pae Christchurch Convention Centre, the Farmers' Market and Rauora Park.
