
Northern Interceptor and North Harbour No. 2 Pipeline Projects

Greenwood Roche is assisting Watercare with these two strategic pipeline projects designed to enable Watercare to keep up with the proposed growth in the northwest of Auckland.

These two projects are estimated to cost Watercare \$800 million. The Northern Interceptor wastewater project will be constructed in various stages with construction to begin soon on stage one to service the growth areas in Massey North, Whenuapai, Hobsonville, Kumeu, Huapai and Riverhead. The North Harbour No.2 watermain will service the new Albany reservoir and will replace the existing watermain which cannot be maintained without disrupting local water supplies.

Hadleigh Yonge is leading Greenwood Roche's team which is advising Watercare on all aspects of these projects, including providing strategic advice, negotiating and acquiring property rights, and advising and dealing with issues relating to compensation.
