
Hunua 4 Tunnel Project

Greenwood Roche is assisting Watercare with this strategically significant project, designed to ensure there is increased capacity in Auckland's water network to meet the ever increasing demand.

More recently, the Tunnel is being constructed within Newmarket to connect to the Khyber Pass Reservoir, and is being directionally drilled under numerous parcels of land.

Hadleigh Yonge is leading Greenwood Roche's team which is advising Watercare on various aspects of the project, including providing strategic advice, and negotiating and acquiring property rights.
